Q-1. A new university having professional courses like MBA, MCA, Engineering (B. Tech), Law etc. and also is an affiliating University in terms of giving recognition to self-financing institutions for starting various professional courses has come up in Ahmedabad. The University wants to increase its visibility among Ahmedabad and neighboring areas for its courses and wants to design a campaign for the same.

[A] Discuss that how the University can use basic model of communication in creating an effective marketing communication. How can we understand the response process of receiver? Suggest some models you would be using for analyzing the target audience of the University. [20]

[B] Develop a media plan and strategy for the university. Explain the steps you will follow to develop the same. Identify that what all media you will include in the plan and why? [20]

Q-2. A global artificial sweetener company is planning to launch a brand NutrasweetM in the Indian market. NutraSweetM™ is a plant-based all-natural ingredient. The base ingredient behind its sugar-matching sweetness is Rebaudioside M, or Reb M, which is a sweet compound found in the leaf of a stevia plant. Rebaudioside M sets NutraSweetM™ apart from their competitors as many of them use other forms of stevia from the plant which are less soluble and result in a bitter taste. Suggest segmentation, targeting, positioning strategy, and an advertising campaign for a successful launch for the NutrasweetM. [20]

MFT5SEM11
